Una storia di tradizione, qualità, innovazione

I due fondatori dell'azienda, una licenza di esercizio datata 1906, una vista dell'interno dell'azienda negli anni '30 e una pagina di catalogo risalente agli anni '40.

*The company's two founders;
a business licence dated 1906;
an interior view of the premises
in the 30's and a catalogue page
dating to the 40's.*

Era il 1880 quando i fratelli Giuseppe e Baldassarre Piazza diedero vita a questa azienda.

Era uno degli albori dell'epopea industriale del nostro territorio, il Cusio, divenuto poi famoso per operosità, ingegno e creatività.

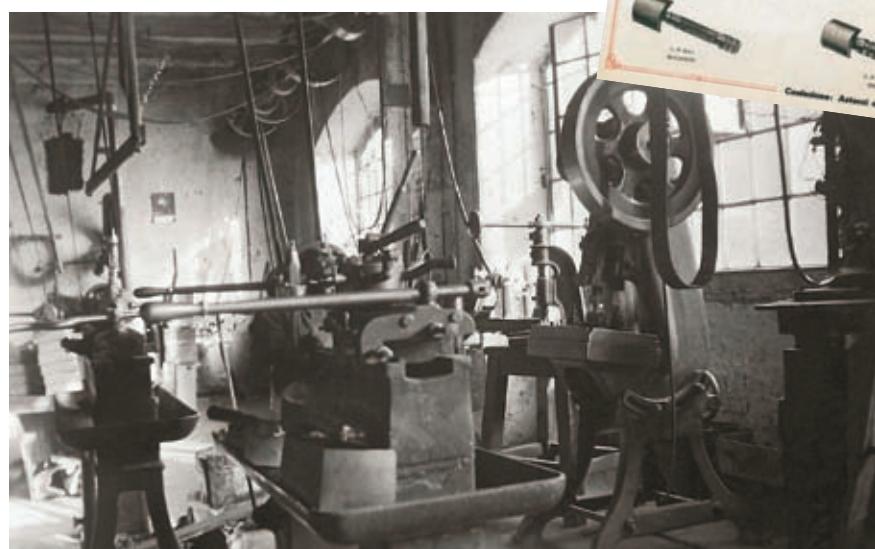

Conserviamo ancora con orgoglio i primi documenti contabili di quella giovane ma già vivace azienda, documenti che testimoniano anche lo spirito etico che da sempre accompagna le nostre scelte imprenditoriali, come quando Ferdinando Piazza, figlio di Giuseppe, alla fine degli anni '30 scelse di non convertire l'azienda alla produzione bellica.

Fu una scelta coraggiosa per quei difficili anni ma Ferdinando Piazza, assieme al figlio Gianni, arricchendo la produzione aziendale di oggetti per la casa creò i presupposti per il grande salto da laboratorio familiare ad azienda industriale a tutti gli effetti.

Proprio Gianni Piazza, tenace pioniere del casalingo moderno in acciaio inossidabile, combinando la sagacia delle sue doti imprenditoriali e le sue geniali intuizioni di inventore, seppe sfruttare i rapidi mutamenti socio economici del panorama italiano, trasformando definitivamente la Piazza in un'azienda moderna e dinamica.

Sempre a lui si deve la costruzione, alla fine degli anni '60, dell'attuale stabilimento che, in un'ideale linea di continuità, viene edificato sugli spazi che ospitavano il precedente.

Egli riuscì inoltre nel difficile compito di produrre oggetti capaci di resistere al tempo alcuni dei quali infatti tuttora in produzione e sempre richiestissimi.

Gianni Piazza in un momento di svago, una pagina di catalogo degli anni '60 e uno fra i tanti brevetti di quegli anni.

Gianni Piazza in a moment of leisure; a catalogue page from the 60's and one of the many patents dating to those years.

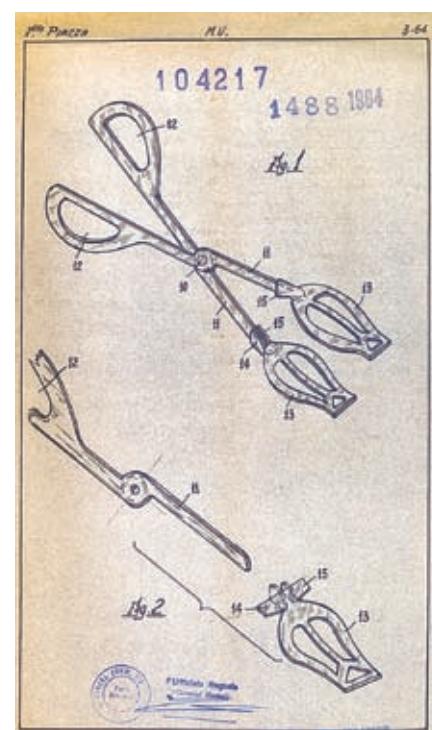

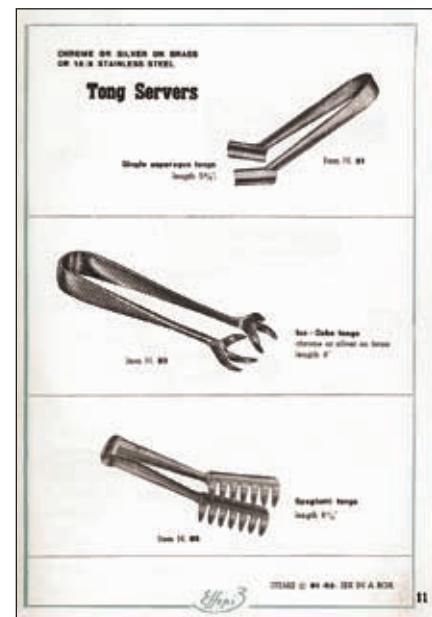

A history of tradition, quality, innovation

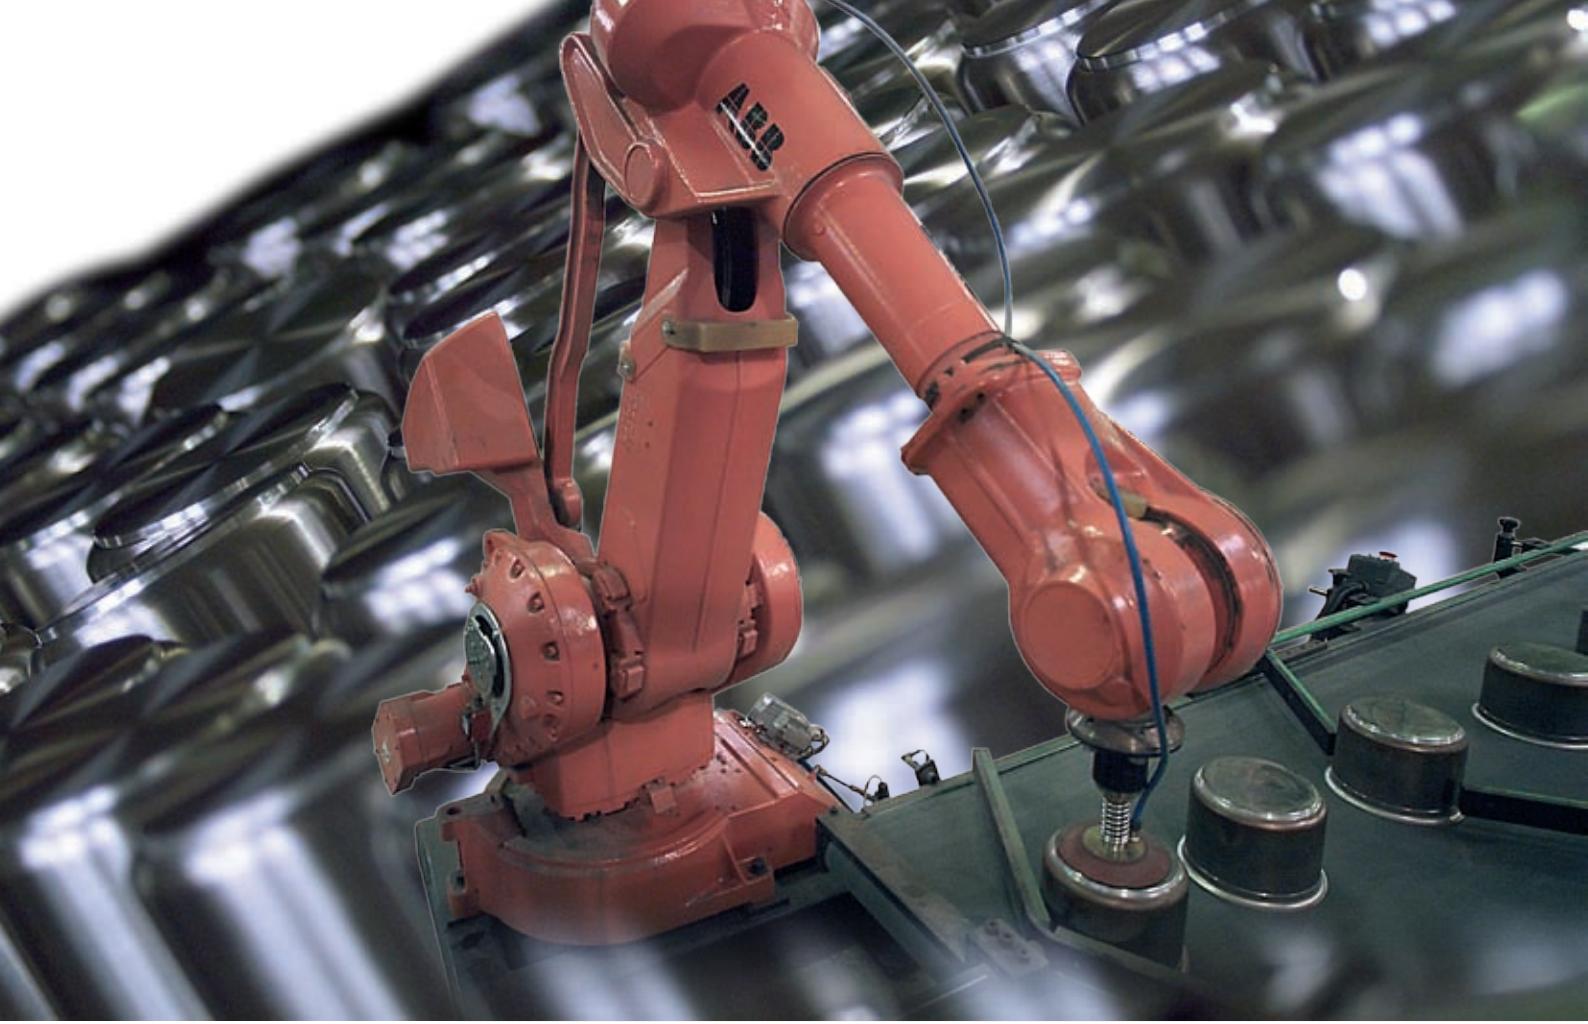

It was 1880 when the brothers Giuseppe and Baldassarre Piazza set up this company. It was the dawn of the industrial age on our territory, Cusio, which would later become famous for industriousness, ingenuity and creativity. We are proud that we still have the first accounts books of that young but already lively company, documents that also bear witness to the ethical spirit which has always accompanied our business choices, such as when Giuseppe's son Ferdinando Piazza, at the end of the 1930's, decided against converting the company into a munitions factory. It was a courageous choice in those difficult years but Ferdinando, with his son Gianni, laid the foundations for the great leap from family workshop to an industrial concern to all effects, enriching the company catalogue with household goods.

It was Gianni Piazza himself, a tenacious pioneer of modern kitchenware in stainless steel, combining the wisdom of his entrepreneurial flair and his ingenious insights as an inventor, who was able to exploit the rapid social-economic changes on the Italian scene, definitively transforming Piazza into a modern, dynamic company.

At the end of the 60's he built the current premises which, as a symbol of continuity, stand on the area that housed the previous building.

He also succeeded in the difficult task of producing objects that never went out of date, some of which are in fact still in production and highly requested.

Oggi l'azienda è guidata dalla quarta generazione Piazza: Ferdinando ed Enrico assieme alle sorelle Cristina e Paola, continuano quella storia iniziata oltre 125 anni fa.

Una storia fatta di rispetto del lavoro, di attenzione alla qualità e di cura dei minimi dettagli, perché siamo consci che i nostri prodotti devono aiutarvi a lavorare meglio, con la massima comodità, e con la tranquillità che nasce dalla sicurezza di aver scelto un prodotto che è la sintesi di un "saper fare" tipicamente italiano che non ha eguali nel mondo.

E proprio in quest'ottica, negli ultimi anni, abbiamo incrementato i nostri sforzi per essere al fianco dei migliori professionisti della ristorazione e delle più prestigiose scuole, ascoltando chi usa quotidianamente i nostri prodotti, accettandone le critiche e carpendo loro preziosi consigli per migliorarci continuamente.

Abbiamo fatto e continuiamo a fare investimenti, sia in tecnologie produttive sia in ricerca e design, per potervi offrire prodotti di alta qualità e perfettamente al passo con i tempi ma ad un prezzo competitivo.

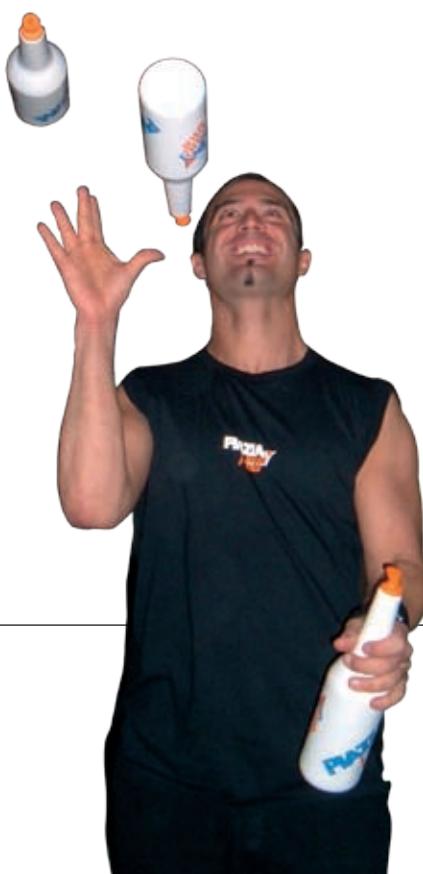

Ma soprattutto non ci siamo dimenticati che, oggi come ieri, il nostro è un mondo che cambia continuamente, ed è indispensabile essere in grado di offrire sempre risposte concrete e funzionali alle vostre esigenze, che sono in costante evoluzione.

Proprio come noi.

LE NOSTRE COLLABORAZIONI OUR PARTNERS

Today the company is run by the fourth Piazza generation: Ferdinando and Enrico, with their sisters Cristina and Paola, carry on that history which began more than 125 years ago. A history made up of respect for work, attention to quality and care over the smallest details, because we are aware that our products must help you to work better, with the greatest comfort and with the peace of mind that comes from the certainty that you have chosen a product which is the synthesis of typical Italian know-how, unparalleled worldwide. It's precisely in this context that in recent years we have been making increased efforts to keep in step with the best professional restaurateurs and the most prestigious schools, listening to people who use our products every day, accepting their criticisms and seizing their precious advice with view to continual improvement. We've made and continue to make investments in both production technologies and in research and design, in order to offer you high quality products, perfectly abreast of the times but at a competitive price. But more than anything else we have not forgotten that – today as yesterday – ours is a world which changes continually and it is indispensable to be able to supply increasingly concrete and functional responses to your needs, which are also in constant evolution.

Just like us.

Christian Delpech, plurivincitore del "Legends" di Las Vegas, considerato il miglior bartender del mondo, nel 2006 e 2007 ha sfoggiato il marchio Piazza Happy Hour nelle varie competizioni internazionali a cui ha partecipato.

Christian Delpech, several times winner of the "Legends" of Las Vegas, unanimously considered the world's greatest barman. In 2006 and 2007 he showed off the Piazza Happy Hour brand at the various international competitions he took part in.

Le molle Piazza sono da sempre punto di riferimento per il mercato, sia per il design che per l'effettiva superiorità di un prodotto immancabile nella collezione di ogni professionista.

I dettagli risaltano l'unicità di ogni singola molla: la curvatura di alcune applicazioni, quale la molla spaghetti, come invito per raccogliere meglio gli alimenti, **il molleggio che conferisce sempre la stessa maneggevolezza anche dopo un numero infinito di pressioni**, grazie ad un accorgimento produttivo esclusivo e ancora oggi riservato, come le formule che resistono da anni a ogni tentativo di imitazione.

Proprio questa sicurezza **permette solo a Piazza di garantire l'inalterabilità delle proprie molle.**

Piazza's tongs have always been the collection used as reference point for the market, both for design and for the effective superiority of a product that is a must for every professional's collection.

*Lastly, the details highlight the uniqueness of each individual pair: the curvature of certain applications, such as the spaghetti tongs, which is like an invitation to gather up the food in the best way; or **the spring which always gives the same manoeuvrability even after an infinite number of pressing**, this thanks to an exclusive production device which is still secret today, as are the formulas which for years have resisted all attempts of imitation. Precisely this certainty **permits Piazza alone to guarantee the inalterability of its tongs.***

Ice-cream scoops

Porzionatore neoclassico

Ice-cream scoop
Eisportionierer
Boule à glace
Porcionador neoclásico

Caratteristiche tecniche

- Interamente in acciaio inox 18/10
- Composti da 12 particolari perfettamente assemblati con saldature a proiezione ad alta tecnologia
- Adatti al lavaggio in lavastoviglie
- Elettrolucidati con metodi alimentari nel rispetto delle norme ambientali
- Cremagliera con spessore di 2 mm per offrire una maggiore scorrevolezza
- Presenza di una bussolina di tenuta per impedire l'uscita dell'astina
- Scorrimento completo dell'astina sulla coppa per creare cerchi perfetti
- Testati per oltre un milione di palline

Technical data

- Made from 100% 18/10 stainless steel
- 12 perfectly assembled components with hi-tech projection welding
- Dishwasher suitable
- Electropolished with feed methods compliant with environmental regulations
- 2 mm-thick rack for better smoothness
- A bush to prevent the rod from coming out
- Full movement of the rod within the cup to create perfect circles
- Tested by producing more than a million balls of ice-cream

I porzionatori costituiscono, nell'assortimento Piazza, un'azienda nell'azienda. Il fattore determinante è l'idea, infatti, il brevetto originale di questo prodotto appartiene a Piazza e risale agli anni '50. Da allora è "Il Porzionatore", che, rinnovato costantemente, rappresenta oggi il riferimento qualitativo del settore, con soluzioni tecniche impareggiabili, quali

- saldature ed accoppiamenti al limite dell'impossibile
- un disegno ergonomico perfetto
- un meccanismo indistruttibile che sopporta stress da utilizzo pressoché infiniti
- assortimento vastissimo (13 diverse capacità).

In the Piazza assortment, ice cream scoops constitute a company within a company. The determining factor is the idea. In fact the original patent for this product belongs to Piazza and dates back to the 50's.

Since then the 'Porzionatore', constantly renewed, represents the sector qualitative reference today, with unparalleled technical solutions such as

- welds and couplings to the limits of the nigh impossible
- perfect ergonomic design
- an indestructible mechanism which can tolerate almost infinite user stress
- wide assortment (13 different capacities).

Avvertenze e consigli d'uso

- > Per garantire un rendimento ottimale del porzionatore il gelato non dovrebbe avere una temperatura inferiore ai -5°C.
- > Si raccomanda di tenere il porzionatore sotto acqua corrente tiepida, ciò contribuisce a impedire la formazione di batteri e ne aumenta la scorrevolezza durante l'uso.

Warning and hints

- > To guarantee top efficiency of the ice-cream scoop, the ice-cream shouldn't be colder than -5°C.
- > We recommend placing the scoop under warm running water before use to avoid the formation of bacteria and to allow it to slide better during use.

Tappo versatore con silicone Design-Pourer

Design-Pourer silicone gear
 Ausgießer mit Silikon - Design-Pourer
 Bouchon verseur avec silicone Design-Pourer
 Tapón para verter con silicona Design-Pourer

I tappi versatori sono parte della storia industriale di Piazza.
 L'applicazione di materiali e tecnologie innovative all'oggetto che per primo ha dato avvio alla produzione di utensili professionali in acciaio Piazza, è simbolo di costante ed approfondita ricerca di qualità e funzionalità.

Nascono così i tappi Soflex.

Pourers are part of Piazza's industrial history.

The application of innovative materials and technologies to the object which first triggered production of Piazza professional utensils in steel, is symbol of the constant, in-depth search for quality and functionality.

This is how Soflex Pourers came into being.

Sintesi di acciaio e silicone il tappo versatore in sofflex esalta le caratteristiche positive di entrambi i materiali; all'ormai sperimentata praticità dei particolari in acciaio:

- **beccuccio salvagoccia,**
 - **cannuccia per l'aria,**
 - **robusto ed igienico coperchio,**
- si aggiunge un rivestimento lamellare in sofflex, che, per le intrinseche caratteristiche del materiale e per l'appositamente studiata conformazione a lamelle, garantisce un impiego perfetto,
- **facilità di immissione e resistenza alla fuoriuscita,**
 - **chiusura ermetica,**
 - **scorrimento agevolato di ogni tipo di liquido (olio, liquore, vino),**
 - **nessun rischio di perdita, di scivolamento del tappo, di permanenza di odore sulla parte in sofflex.**

A synthesis of steel and silicone, the pourers in silicone highlight the positive features of both materials: to the well tried practicality of the details in steel,

- **drip-catcher spout,**
- **air inlet and tough,**
- **hygienic lid,**

is added a lamellar covering in silicone which, due to the intrinsic characteristics of the material and the specially designed lamella conformation, guarantees perfect use

- **easy insertion**
- **resistance to leaks,**
- **hermetic closure with easy flow of all types of liquids (oil, liqueur, vinegar)**
- **no risk of leaking, of the cork slipping or of odours remaining on the part in silicone.**

Un vasto assortimento di articoli finalizzati a "scolare" gli alimenti, denota un'attenzione particolare al problema; la serie dei colini si distingue per la rete impiegata, la cui trama è fitta e resistente, nonché per la sua saldatura al corpo, rifinita e durevole; gli chinois sono declinati per diversi utilizzi, a buchi ed a rete, anche con rinforzo; gli spicchi, infine, di alta qualità, adatti ad una cucina moderna, veloce, seppur sempre attenta alla qualità delle preparazioni alimentari.

A vast assortment of articles for straining foodstuffs, featuring special attention paid to the problem. The series of strainers is distinguished by the tough, close-mesh employed as well as by the lasting and well-finished welding to the body. The chinois are in a range of sizes for different uses, both with holes and mesh, and also reinforced. Lastly, the pasta warmer dishes are of high quality, suitable for a fast, modern kitchen that is nonetheless attentive to the quality of food preparation.

PAZ PAZ PAZ

Cucina Kitchen

- Alt spessori
- Robustezza
- Resistenza all'usura
- Finiture di pregio
- Saldature indistruttibili
- Maniglie cave ed ergonomiche

Le collezioni di pentolame sono frutto di una ricerca avanzata e costante che pone Piazza all'avanguardia nel settore.

Le maniglie, dalla presa ampia e solida, sono brevettate, infatti, alcuni accorgimenti, quali la curvatura che ne agevola la comoda presa, **la cavità che evita la scottatura, l'esistenza di pastiglie nel punto di saldatura delle stesse al corpo che le rende ermetiche**, hanno reso possibile la creazione di un elemento determinante per la definizione di qualità di un prodotto.

Gli spessori del corpo sono i più alti della categoria, la lucidatura è ben rifinita, a garanzia di una lunga durata; discorso a parte merita **il fondo termodiffusore, con inserto in alluminio e fondello in inox, che consente l'impiego su fonti di calore di ogni tipo, dalla tradizionale all'induzione.**

La collezione, infine, presenta un vasto e completo assortimento di misure.

- Thick
- Tough
- Wear-resistant
- Fine finish
- Indestructible welding
- Hollow ergonomic handles

The saucepan collections are the fruit of advanced, constant research that puts Piazza in the avant-garde of the sector.

The handles, with a wide, solid grip, are patented, and in fact some aspects such as the curvature which facilitates their handy grip, **the cavity which avoids burning the hands, the pads at the points where they are welded to the body which makes the handles hermetically sealed**, resulted in the creation of a determining element for the definition of product quality.

The bodies are thicker than any in the category and the well-finished shine is a guarantee of long life. **The heat diffuser with insert in aluminium and stainless steel base, can be used on all sources of heat, from traditional to induction.**

Lastly, the collection comes in a vast and complete assortment of sizes.

Il grafico mostra i valori delle temperature raggiunti dalle maniglie delle pentole della serie "5 stelle" Piazza confrontati con quelli delle altre maniglie presenti sul mercato. Come si può notare, se vengono usate in maniera corretta, le **maniglie Piazza non raggiungono mai il punto critico dei 40°C** (sopra il quale le mani si scottano) anche quando l'acqua è a 98°C.

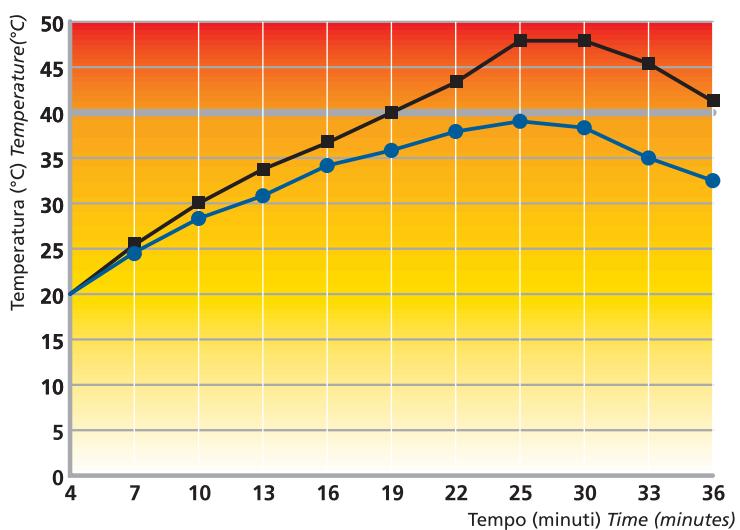

The graphic shows the values of the temperature reached by Piazza's handles compared to the one of the other handles on the market. As you see the temperature of **Piazza's handles never reaches the critic point of 40°C** even with water at 98°C, if used in the proper way. Above this critic point hands get burnt.

La serie DiciottoDieci, interamente prodotta in Italia nei nostri stabilimenti di Crusinallo, va a completare **una gamma di linee pensata appositamente per soddisfare qualunque utenza.** Dal grande chef al piccolo agriturismo, dall'Hotel 5 stelle alla mensa aziendale, **il pentolame Piazza offre a tutti la garanzia di una giusta qualità ad un giusto prezzo.**

Questa linea in particolare **unisce una grande convenienza a una serie di caratteristiche che solo un prodotto Made in Italy può fornire**, permettendovi di lavorare ogni giorno in tutta tranquillità e con la massima sicurezza.

*The DiciottoDieci series, produced exclusively in Italy at our Crusinallo premises, **completes a range of lines specially designed to satisfy all user requirements.** From the great chef to the small holiday farm, from the 5 star hotel to the company canteen, **Piazza kitchenware offers everyone a guarantee of the right quality at the right price.***

*This line especially **unites cost with a series of features that only a Made in Italy product can supply**, so you can work every day without worries and in maximum safety.*

Cura dei particolari *Attention to details*

Come per tutti i prodotti Piazza la differenza è fatta dalla cura dei particolari. Per esempio il comodo bordo a versare per facilitare lo svuotamento e le maniglie a tubo, vuote al loro interno, in modo da evitarne l'eccessivo surriscaldamento.

As with all Piazza products, the difference is in attention to detail. Such as the handy pouring edge to facilitate emptying and the tubular handles to avoid excessive overheating.

Tecnologia Italiana *Italian Technology*

L'ingegnerizzazione del processo di produzione, ora altamente automatizzato grazie alle nuove tecnologie, consente finalmente la qualità "Made in Italy" ad un prezzo accessibile a tutti.

The engineering of the production process, now highly automated thanks to new technologies, means that "Made in Italy" quality is at last available at a price accessible to all.

Gamma completa *Complete range*

L'assortimento della linea DiciottoDieci è ampio e completo: sia per quanto riguarda la tipologia di pezzi che per la varietà di misure. Tutti i pezzi sono inoltre compatibili con la cottura ad induzione.

The DiciottoDieci line offers a complete range with regard to both type of piece and variety of sizes. Moreover, all pieces are compatible with induction cooking.

La qualità PIAZZA nel campo dell'acciaio inox, unita all'innovativa tecnologia Excalibur, ha dato vita a una linea di padelle antiaderenti senza eguali sul mercato.

Le padelle inox antiaderenti PIAZZA combinano le qualità di resistenza e durevolezza dell'acciaio inox con le caratteristiche di praticità dell'antiaderenza attraverso l'innovativa tecnologia di rivestimento EXCALIBUR.

Tutto questo conferisce loro caratteristiche assolutamente ineguagliabili di:

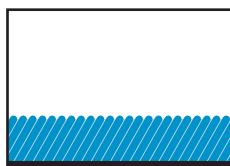

- **Massima resistenza contro abrasione e corrosione**
- **Lunghissima durata nel tempo**
- **Grande praticità d'uso consentendo anche l'utilizzo di accessori cucina in metallo**
- **Ottima igienicità limitando la formazione di residui di cottura sulla superficie**
- **Estrema facilità di pulizia**

PIAZZA quality in the field of stainless steel plus the innovative Excalibur technology, have resulted in a line of non-stick pans that fear no rivals on the market.

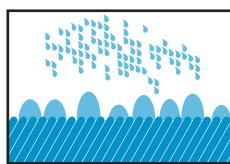

PIAZZA non-stick stainless steel pans combine the qualities of strength and long-life typical of stainless steel with the practical characteristics of a non-stick surface thanks to the innovative EXCALIBUR coating technology. All this gives PIAZZA non-stick stainless steel pans unequalled quality when it comes to:

- **Max resistance to abrasion and corrosion**
- **Ultra long life**
- **Great practicality even metal kitchen utensils can be used**
- **Excellent hygiene limiting the formation of residues of cooking on the surface**
- **Super easy cleaning**

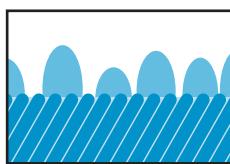

In cosa consiste la tecnologia EXCALIBUR e perché garantisce risultati eccezionali

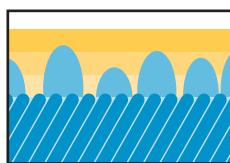

1. La superficie dell'acciaio viene lavorata con un abrasivo per fare in modo che gli altri elementi del processo di lavorazione vi aderiscano meglio.

2. La fase più importante. Consiste nello spruzzare sulla superficie grezza particelle liquefatte di una speciale lega d'acciaio.

3. Le particelle, una volta raffreddate ed indurite, si legano con la superficie formando una serie di irregolarità e creando una base solidissima per il trattamento antiaderente.

4. Vengono stesi vari strati di rivestimento antiaderente che, coprendo le speciali irregolarità, si ancorano permanentemente ad esse dando origine ad una superficie perfettamente uniforme.

But what is EXCALIBUR technology and why does it guarantee exceptional results?

1. The surface of the steel is worked with an abrasive tool to maximise the adhesion of all the other elements in the process.

2. The most important stage is the spraying of the liquefied particles of a special steel alloy onto the rough surface.

3. These particles, when cooled and hardened, bind with the surface to form a series of irregularities and so create a truly solid base for the non-stick treatment.

4. Several layers of the non-stick coating are applied, covering and permanently adhering to these special irregularities, to create a perfectly uniform, long-lasting surface.

La linea pentolame alluminio Piazza.
 Una gamma di prodotti che coniuga le proverbiali caratteristiche dell'alluminio:

- ottima conducibilità termica
- risparmio energetico
- leggerezza

 con un vantaggioso rapporto qualità-prezzo.
 Inoltre l'ampiezza e la varietà dell'assortimento, pregi tipici di tutto il pentolame Piazza, consentono a ognuno di costruirsi una soluzione su misura per le proprie esigenze.

The Piazza line of aluminium pots and pans.
 A range of products that couples the proverbial features of aluminium:

- optimal heat conduction
- energy saving
- lightness

 with an advantageous quality-price ratio.
 Furthermore, the breadth and variety of assortment – typical of all Piazza lines – mean that everyone can build up a customised solution for his own requirements.

Un punto di forza che avvalora il fattore qualità di un'azienda è l'attenzione ad un **assortimento vasto e ben equilibrato nelle misure**, ciò avviene nella collezione di teglie e pescere Piazza. Vengono proposte, dunque, **misure che raggiungono anche i 100 cm**, permettendone l'utilizzo sia in caso di numerosi preparati che per alimenti di grandi dimensioni.

A strongpoint giving value to the company's quality factor is the attention paid to supplying a **vast and well balanced assortment**.

This is the case with Piazza's baking pan and fish-kettle collection. **So measurements even up to 100 cm** are offered, permitting use both in the case of numerous portions and large-size foodstuffs.

GUIDA ALLA SCELTA DEL CESTELLO PER BICCHIERI

- 1.** Posizionate il bicchiere rovesciato sopra il cerchio al centro della guida; abbiate cura che il centro del bicchiere sia esattamente sopra il centro della guida.
- 2.** Osservate dall'alto la base del bicchiere.
- 3.** Il quadrato più piccolo della guida in grado di contenere il massimo diametro del vostro bicchiere vi indicherà il numero di scomparti necessario per il vostro cestello.
- 4.** Posizionate ora il bordo del bicchiere sulla base della scala numerata sul lato destro della pagina con la base del bicchiere rivolta verso l'alto.
- 5.** Tenendo il bicchiere in questa posizione, parallelo alla scala graduata, prendete nota della sua altezza, la prima linea esterna sopra questo punto vi indicherà il numero di estensioni necessario.

GLASS RACK SIZING GUIDE

- 1.** Place glass upside down on the top of the middle circle of the sizing guide; center of the glass (or the stem on stemware) should be over the center of the guide
- 2.** Look down on the base of the glass
- 3.** Note the smallest square on the guide where the largest outside diameter of your glass lines up completely within the square without touching it - this is the number of compartments your rack needs to have
- 4.** Place lip of glass against the base line of the vertical guide on the right-hand side of the page with the base/foot of the glass pointing straight up towards the top of the page
- 5.** While holding the glass against the vertical guide, note where the base/foot of the glass lines up on the vertical guide - the next line above the base/foot on the guide indicates the number of extenders your rack will require

210051

6 pcs.

Cestello per terrine
Rack for terrines

210052

6 pcs.

Cestello a lato aperto
Open sided rack

Sistema a tre componenti

La combinazione di cestello di base e di estensioni aperte e suddivise alternate offre la massima protezione e non compromette le prestazioni del sistema

Three component system

Our combination of base rack and open and divided extenders offers the greatest protection without sacrificing performance

Misure: 49,5 x 49,5 cm

Size: 49,5 x 49,5 cm

Finitura granulosa

Riduce le scalfitture, migliora la durabilità e offre una presa sicura

Textured finish

Reduces scrapes, improves durability and provides a secure grip

Struttura a profilo aperto

Facilita lavaggi accurati, risciacqui completi e asciugature rapide

Open profile design

Facilitates superior washing, complete rinsing and fast drying

Manici curvi comodi
Comfort curve handles

Struttura a nido d'ape
Facilita l'efficace distribuzione del carico

"Honeycomb" design
Distributes load more effectively

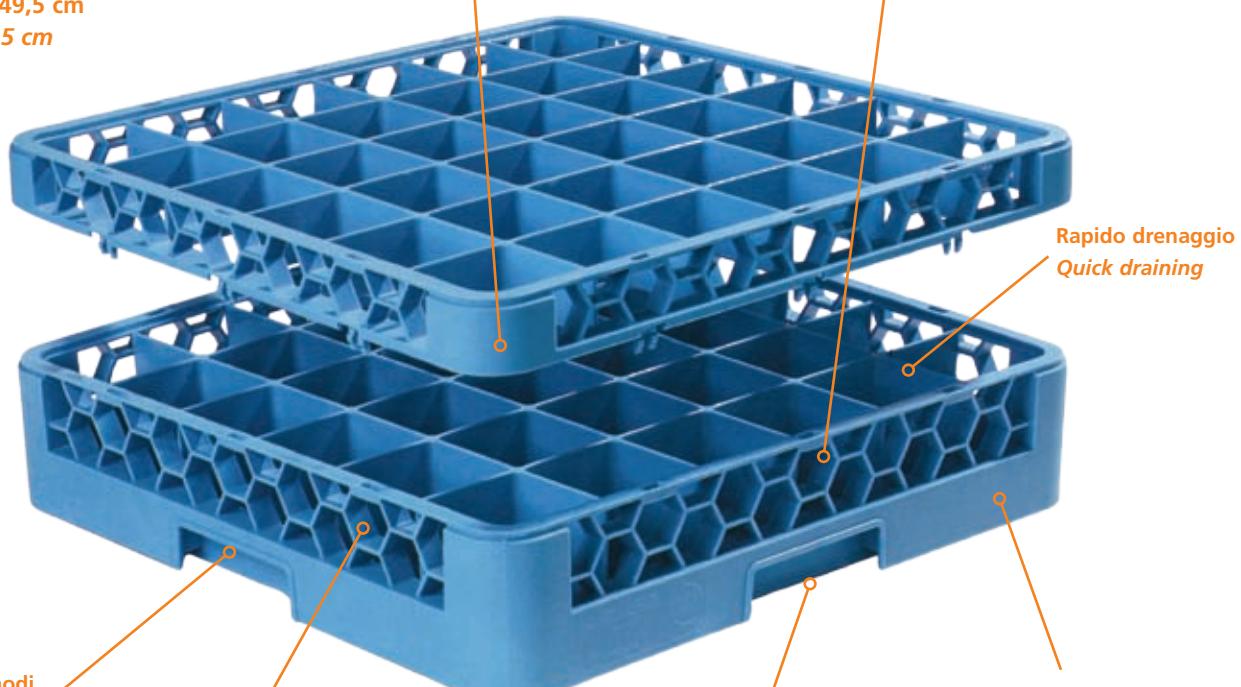

Rapido drenaggio
Quick draining

Struttura a pareti doppie
Rafforza ulteriormente i cestelli e protegge le stoviglie

Double wall construction
For maximum strength, protect contents

Strisce guida sagomate
Per caricare i cestelli facilmente nella lavastoviglie

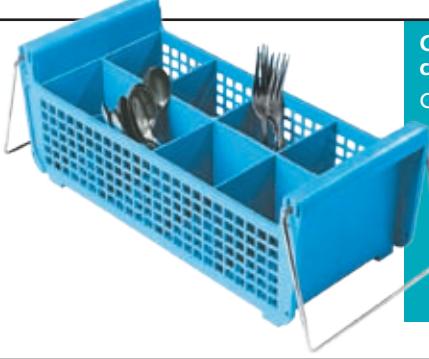

Four-way tracking
For easy dish machine loading

La serie in acciaio inox 18/10 è adatta a qualunque tipo di preparazione sia a caldo che a freddo. Totalmente idonea al contatto con gli alimenti, secondo la normativa UE89/109, garantisce una perfetta igienicità grazie anche alla semplicità di pulizia (può andare in lavastoviglie). **Preparare, cuocere, trasportare ed esporre.**

Potete fare tutto utilizzando il medesimo contenitore evitando scomode sostituzioni. Le caratteristiche tecniche dell'acciaio inox ne consentono inoltre l'uso in tutte le moderne apparecchiature professionali per preparazioni sia a caldo che a freddo: friggitrici, forni di cottura, armadi frigoriferi ecc.

The series in 18/10 stainless steel is ideal for all kinds of hot and cold preparations. Fully suitable for contact with foodstuffs in accordance with UE89/109 Standards, it ensures perfect hygiene, thanks also to easy cleaning (it can go in the dishwasher).

Prepare, cook, transport and display. You can do everything using the same container, avoiding bothersome replacements.

The technical features of stainless steel mean that the series can be used with all modern professional equipment for hot and cold preparations: fryers, cooking ovens, refrigerated units etc.

Nuova serie in Acciaio AISI 201 New series in AISI 201 steel

Questa **nuova serie in Acciaio AISI 201** è il risultato dell'evoluzione e dell'innovazione tecnologica, **rispetta le più rigorose normative igieniche** riguardanti la conservazione e la preparazione di prodotti alimentari, ed è altamente competitiva sul mercato.

La serie è caratterizzata da:

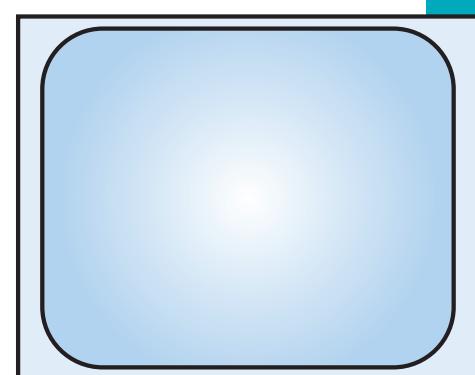

- Acciaio AISI 201, un materiale nuovo, certificato, che garantisce rispetto dell'igiene e facilità nella pulizia.
- Forme e misure modulari che consentono compatibilità con gli analoghi prodotti già in assortimento.
- Impilabilità e possibilità di combinare fra loro i vari articoli della serie.
- Semplicità d'uso e funzionalità che permettono, con un solo prodotto, di preparare, cuocere, trasportare, esporre e conservare.
- Utilizzo con tutte le moderne apparecchiature professionali.

This new series in AISI 201 steel is the result of technological evolution and innovation. It observes the most rigorous hygiene regulations concerning the preservation and preparation of foodstuffs, and is highly competitive on the market.

The series features:

- *AISI 201 Steel, a new certified material that guarantees hygiene and easy cleaning.*
- *Modular forms and sizes ensuring compatibility with analogous products already available.*
- *Stackable, and with the possibility of combining the various articles in the series.*
- *Simplicity of use and functionality: with one single item you can prepare, cook, transport, exhibit and preserve.*
- *Usable with all modern professional equipment.*

Gastronorm polycarbonate

Bacinella GN 2/1 in pollicarbonato

Gastronorm
container 2/1
in polycarbonate

Item

225020

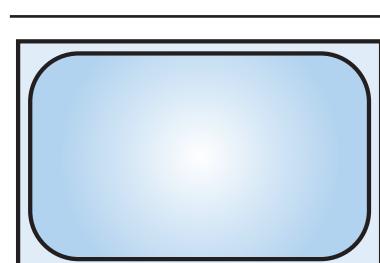

Size (cm)

65 x 53 x 20

La serie in pollicarbonato presenta caratteristiche di **robustezza ed indeformabilità che rende le vaschette infrangibili**. La totale trasparenza del materiale e la presenza di una comoda scala graduata facilitano tutte le operazioni di stoccaggio, permettendo l'**immediata identificazione del contenuto e il rapido controllo della sua quantità**.

Sono completamente **idonee per qualunque tipo di preparazione a freddo e sopportano il calore fino a 99°C consentendone quindi l'utilizzo anche per la cottura a microonde**.

Non assorbono né odori né grassi e **si possono comodamente lavare in lavastoviglie**.

The series in polycarbonate has such features of **toughness and non-deformability** that the containers are unbreakable.

The total transparency of the material and a handy graduated scale facilitate all storage operations.

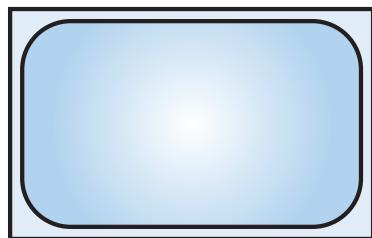

Contents can be identified immediately and the quantity rapidly checked.

They are **fully suitable for all types of cold preparations** and are heat resistant up to 99°C so they can be used in microwave cooking.

They do not absorb odours or fats and are easily washed in the dishwasher.

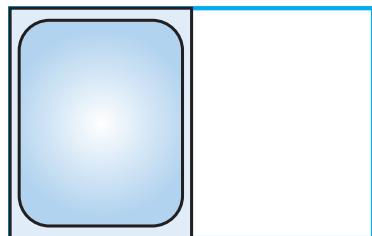

Gastronorm polypropylene

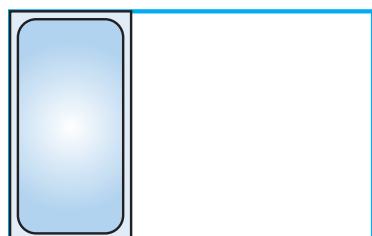

**Bacinella GN 1/1
in polipropilene**
Gastronorm container 1/1
in polypropylene

Item	Size (cm)
228106	53 x 32,5 x 6,5
228110	53 x 32,5 x 10
228115	53 x 32,5 x 15
228120	53 x 32,5 x 20

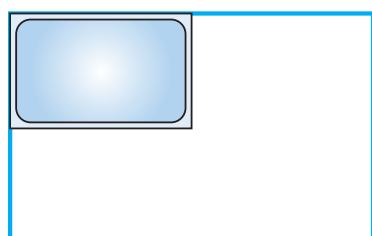

**Bacinella GN 1/2
in polipropilene**
Gastronorm container 1/2
in polypropylene

228306	32,5 x 26,5 x 6,5
228310	32,5 x 26,5 x 10
228315	32,5 x 26,5 x 15
228320	32,5 x 26,5 x 20

**Bacinella GN 1/3
in polipropilene**
Gastronorm container 1/3
in polypropylene

228406	32,5 x 17,5 x 6,5
228410	32,5 x 17,5 x 10
228415	32,5 x 17,5 x 15
228420	32,5 x 17,5 x 20

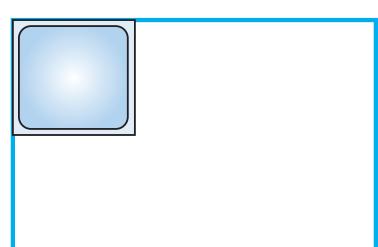

**Bacinella GN 1/4
in polipropilene**
Gastronorm container 1/4
in polypropylene

228506	26,4 x 16,2 x 6,5
228510	26,4 x 16,2 x 10
228515	26,4 x 16,2 x 15
228520	26,4 x 16,2 x 20

La serie in polipropilene, **più economica rispetto alle altre due, è ideale per le preparazioni a freddo** grazie alle caratteristiche del materiale, più morbido rispetto al policarbonato. Un materiale che, pur non sopportando preparazioni a caldo, esalta la maneggevolezza di questa serie in cui ancora una volta la trasparenza garantisce una **facile identificazione del contenuto**, rendendola particolarmente indicata per lo stoccaggio e la conservazione a freddo.

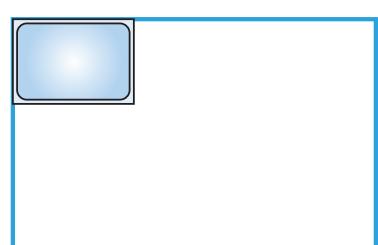

The series in polypropylene, **more economical than the other two, is ideal for cold preparations**, thanks to the features of the material. Softer than polycarbonate, this material, though not heat resistant, highlights the manageability of the series. Here too, transparency ensures **easy identification of the contents**, making it particularly recommended for cold storage and preservation.

229019	1/9

Particolare di estrema importanza è la disponibilità, anche per le due serie in materiale plastico, del **coperchio a tenuta che consente la conservazione ed il trasporto in completa sicurezza degli alimenti che rilasciano liquidi.**

Il coperchio a tenuta inoltre preserva gli alimenti dall'attacco dei batteri, garantendo il pieno rispetto delle indispensabili condizioni di igienicità.

An especially important detail is the availability, including for the two series in plastic material, of a sealing lid that permits preservation and transport of liquid-rich foods in complete safety. The sealing lid also prevents the foodstuffs from bacterial attack, guaranteeing full observance of the indispensable hygiene conditions.

SOFLEX è una linea completa di **forme morbide in silicone adatte alla preparazione di qualsiasi ricetta**, dolce o salata, sia in forno che in frigorifero, realizzate in un materiale talmente stabile ed atossico che può trasformarsi automaticamente in contenitore da conservazione. **Tutta la comodità di cuocere in forno, passare nell'abbattitore e riporre in cella, nel breve volgere di qualche minuto, senza mai dover cambiare di contenitore.**

SOFLEX is a complete line of **soft silicon molds suitable for preparing any recipe**, either sweet or savory, baked or refrigerated, made of a material so stable and non-toxic that it can automatically transform into a storage container.

All the convenience of oven baking, blast chilling and freezing, in the brief span of just a few minutes, without ever having to change the container.

SOFLEX opera in un'ampia gamma termica restando stabile e mantenendo tutte le proprie caratteristiche dalle temperature più che polari (-60°C) a quelle vulcaniche (+300°C).

È adatto a qualsiasi tipo di forno, particolarmente consigliato per il microonde, oltre che per qualsiasi ambiente refrigerato, dal normale frigo di casa alla cella frigorifera.

In aggiunta alle prestazioni di resistenza, conducibilità, in grado di garantire un stampo evitando così le famigerate zone

una delle migliori caratteristiche di **SOFLEX** è l'elevata irradimento uniforme del calore in ogni zona dello stampo bruciate in contrapposizione a quelle poco cotte.

SOFLEX operates in a wide thermal range, remaining stable and retaining all its characteristics from sub-polar temperatures (-60°C) to volcanic heat (+300°C).

It's suitable for any kind of oven, and is especially recommended for microwaves, as well as any refrigerated environment, from normal home refrigerators to industrial freezers.

In addition to being resistant, one of **SOFLEX**'s finest features is its high conductivity, which guarantees uniform heat irradiation in every area of the mold, thus avoiding the common problem of burned areas next to undercooked spots.

Con SOFLEX, si risparmiano tempo e costi di gestione e si guadagna in praticità: **le forme sono impilabili, appendibili e sono state realizzate con un sistema modulare che permette di adattarle perfettamente alle dimensioni standard usate da cuochi e pasticceri, la GN 1/1 e la teglia cm 60x40.** SOFLEX è il rivoluzionario comodo: semplifica e migliora l'operatività, senza stravolgere l'abituale sistema di lavoro.

Per praticità d'uso, si consiglia di appoggiare sempre SOFLEX su una placca o su una griglia.

*With SOFLEX, you save time and operating costs and gain in practicality: **the molds can be stacked and hung and are made using a modular system that allows them to adapt perfectly to standard dimensions used by cooks and bakers, GN 1/1 and the 60x40 cm baking pan.** SOFLEX is a convenient revolutionary: it simplifies and improves operations without upsetting normal work systems.*

For practical use, it is recommended that you always place SOFLEX on a metal plate or grill.

- 1.** Spatolare in maniera uniforme la pasta per la decorazione sul tappeto antiaderente.

Spread the decoration pastry uniformly on the non-stick mat.

Si ringraziano docenti e studenti dell'Istituto Alberghiero "E. Maggia" di Stresa per la collaborazione prestata, in occasione del servizio fotografico di pasticceria contenuto in questo catalogo.

Our thanks to teachers and students at the "E. Maggia" Hotel and Catering Institute of Stresa for their help on the occasion of the pastry photographic session included in this catalogue.

- 2.** Appoggiare il pettine per la decorazione sul foglio e, tirandolo nella direzione desiderata, creare il decoro. Passare in congelatore.

Rest the decorating comb on the sheet and create the decoration by drawing it in the desired direction. Put into the freezer.

- 3.** Stendere in maniera uniforme la pasta per il biscuit. Cuocere in forno.

Spread the biscuit pastry uniformly. Bake in the oven.

- 4.** Togliere, con delicatezza, il tappeto antiaderente.

Carefully remove the non-stick mat.

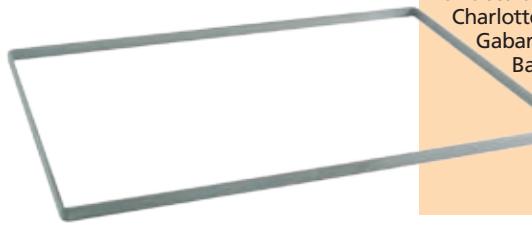

- 5.** Con gli appositi tagliapasta regolabili tagliare il prodotto, creando le fasce di biscuit della larghezza desiderata.

With the special adjustable cutters, cut the product, creating biscuit strips of the desired width.

PERCHÉ SCEGLIERE IL RAME

Il rame possiede numerosi vantaggi: innanzitutto **la sua eccellente conducibilità termica** (392 W/m°K) evita i rischi di surriscaldamenti locali e **consente un notevole risparmio energetico**.

È **indispensabile in alcune preparazioni** quali la lunga cottura a calore costante e, in pasticceria, per la perfetta riuscita di creme e zucchero caramellato. Inoltre è **battericida, non emette sostanze nocive per l'ambiente** e risulta riciclabile al 100%.

CONSIGLI D'USO

- Non porre sul fuoco il recipiente vuoto, per evitare danni alla stagnatura interna.
- Cuocere sempre a fiamma moderata.
- Non utilizzare prodotti abrasivi per la pulizia dell'interno.
- Per riportare il rivestimento esterno all'originale brillantezza è sufficiente passare con delicatezza un limone sulla superficie.

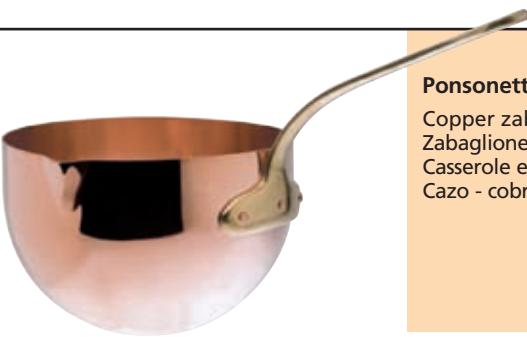

WHY CHOOSE COPPER

There are numerous advantages: firstly, it is an excellent heat conductor (392 W/m° K), obviating risks of local overheating; it is also highly energy-saving.

It's indispensable for certain preparations such as long cooking at constant heat and, in pastry-cooking, for the perfect success of custards and caramelised sugar. Moreover it is bactericidal, does not emit substances harmful to the environment and is 100% recyclable.

RECOMMENDATIONS FOR USE

- To avoid damage to the internal plating, do not put the empty receptacle on a flame.
- Always cook on a moderate flame.
- Do not use abrasive products to clean the inside.
- To return the exterior to its original brightness, just rub the surface delicately with a lemon.

La linea Copenhagen è arricchita da alcuni pezzi di posateria speciale:

- **la forchettina torta**
il cui design coniuga in un unico pezzo la doppia funzione di taglio e raccolta

- **il salsacoltello**
(nato da un'idea di Eugenio Medagliani) che riunisce le funzionalità del coltello da pesce e del cucchiaio da dessert

- **la forchetta risotto**
in cui la particolare conformazione dei rebbi e l'ampia concavità facilitano la raccolta della pietanza.

The Copenhagen line is enriched by several pieces of special cutlery:

- **the cake fork**

whose design links in one piece the twofold function of cutting and scooping

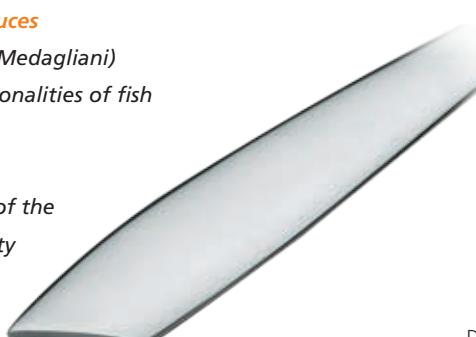

- **the cutting spoon for sauces**

(from an idea by Eugenio Medagliani)

which combines the functionalities of fish knife and dessert spoon

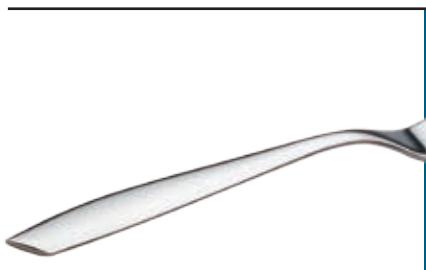

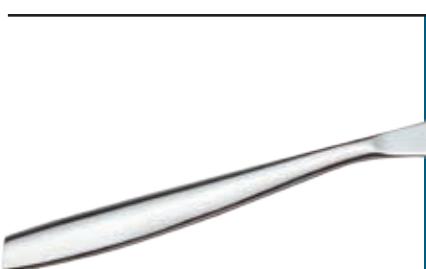

- **the risotto fork**

in which the special form of the prongs and ample concavity facilitate manipulation.

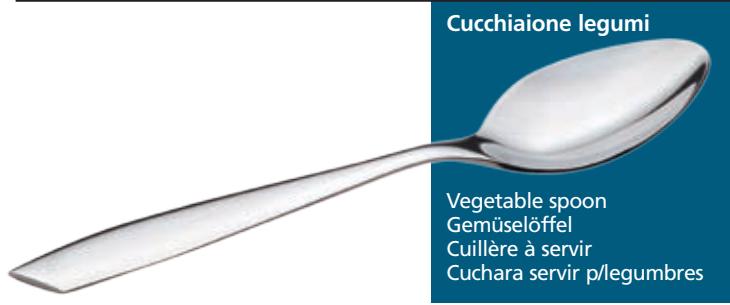

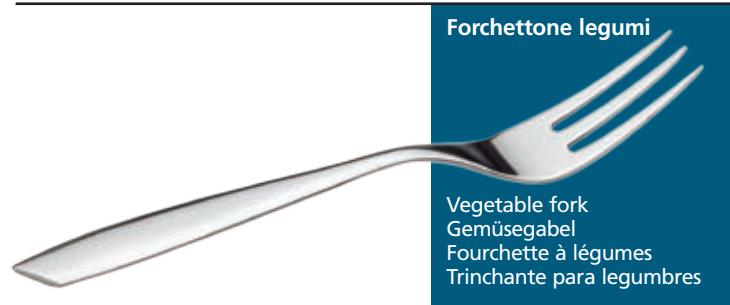

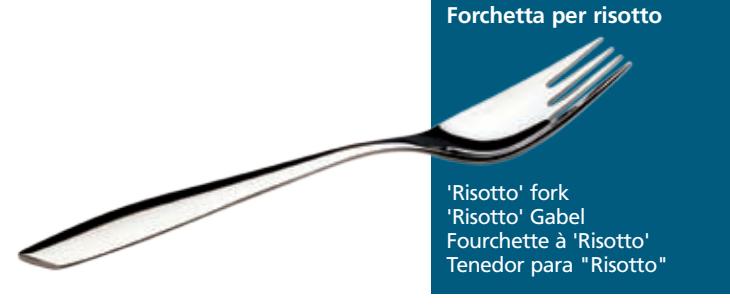

Design by Michele Capuani e Judith Byberg

THE NEW CLASSIC

Una linea elegante ma allo stesso tempo innovativa, una posata che si accompagna con la *mise en place* più ricca e tradizionale portando una ventata di design e modernità.

La posata Praga di Piazza è la dimostrazione che il rinnovamento della tavola non passa necessariamente per la semplicità, ma che si possono coniugare classicità e innovazione: **le impugnature quadrate e voluminose, il sofisticato decoro satinato, la forma classica delle applicazioni**, fanno di Praga il nuovo classico sulla tavola del ristorante di prestigio.

Riflessi di acciaio e opacità improvvise creano un gioco di luci riflesse che non passerà inosservato, in qualunque contesto. Sul fondo dell'impugnatura, un'impercettibile asimmetria rende la linea Praga meno seriosa di quanto ti aspetti, come a dire che la vera eleganza è quella che non si prende troppo sul serio.

An elegant yet at the same time innovative line: cutlery that matches the richest and most traditional mise en place, bringing a breath of design and modernity.

*Piazza's Praga cutlery is proof that renewal of the table needn't necessarily be by way of simplicity, that the classic may be coupled with innovation: **the squared, voluminous grips, the sophisticated satinated decoration and the classic form of the applications** make Praga the new classic on prestige restaurant tables.*

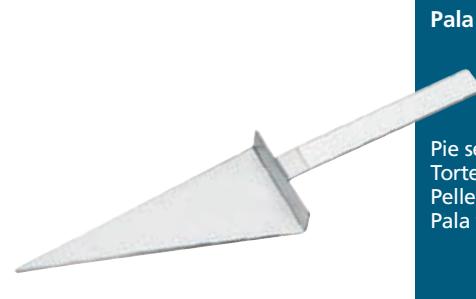

Reflections of steel and sudden opacities create a play of reflected lights that will not go unnoticed in any situation. At the base of the grip an imperceptible asymmetry renders the Praga line less serious than you'd expect, as if to say that true elegance doesn't take itself too seriously!

Per ogni piatto il sale adatto

The right salt to each food

Sale al the verde

Il the verde giapponese ricco di proprietà benefiche all'organismo, si unisce a preziosi cristalli di sale integrale creando un originale e versatile condimento che può essere utilizzalo su tutti i piatti, e nelle bevande a base di tequila, gin e vodka.

Green Tea Scented Salt

Japanese green tea, rich in healthy virtues; joined with precious integral salt crystals, to give life to an original and versatile dressing for all your dishes, and especially for all drinks based on gin, tequila and vodka.

Sale rosa dell'Himalaya

Sale fossile delle montagne himalayane, formato 200 milioni di anni fa, conserva nella sua purezza i contenuti di minerali, tra cui il ferro e il magnesio che danno origine al suo tipico e delicato colore. Ottimo per esaltare il gusto di qualunque pietanza, è consigliato per migliorare l'apporto di minerali nella dieta quotidiana.

Pink Salt of Himalaya

Is a fossil salt, that originated more than 200 millions year ago. It comes from Himalayan Mountains. It contains several different minerals, in particular iron and magnesium which give it that typical light pink colour. Suitable for every types of food, is recommend to give the right integration of minerals for your daily diet.

Sale ai 6 pepi

Questo sale rallegrerà qualunque tavola, conferendo una straordinaria aromaticità di note fruttate a tutti i cibi della cucina tradizionale e fusion.

Six Peppers Salt

This 'spicy' salt will bring good cheer on every table, and thanks to its extraordinary aromas of fruits and flowers, will accompany all traditional and fusion dishes.

Sale-Sale

Sale dalle qualità energizzanti e stimolanti date dal peperoncino, dal guaranà e dal ginseng. Consigliato per dare un tocco di originale vigore a tutte le vostre pietanze.

Salt-Salt

This salt will be your power source. The stimulating mix of chili, guaranà and ginseng, will add a really powerful extra touch to all your dishes.

Sale afrodisiaco

Lo zenzero e le spezie esotiche contenute in questo sale marino coinvolgono i sensi in un viaggio tra profumi e sapori seducenti, esaltando tutti i vostri cibi.

Aphrodisiac Salt

Ginger and exotic spices mixed in this sea salt will drag your senses into a fantastic journey among seductive smells and tastes, giving that 'extra gear' to all your dishes.

Sale al Celery (semi di sedano)

Le innumerevoli proprietà dei sale marino si sposano con i semi di sedano, creando un fantastico aroma adatto a condire ed esaltare tutti i piatti a base di verdura, uova e pesce e ad aromatizzare cocktail a base di succo di pomodoro tipo "Bloody Mary".

Celery Salt

All the many benefits of sea salt are combined with the celery seeds making a fantastic aroma that goes very well with vegetables, eggs, and fish, and especially with tomato-sauce cocktails like 'Bloody Mary'.

Sale mediterraneo

Imprigiona nei suoi cristalli il fascino dei profumi mediterranei. Un equilibrio perfetto tra il fresco bouquet di erbe e l'intrigante e agrumato sentore di spezie. È consigliato nelle insalate di verdura, sulla caprese, sulla tagliata di manzo e naturalmente sul pesce.

Mediterranean Salt

This salt locks in its crystals all the typical mediterranean smells and tastes, finding the right aroma balance between the sweet of fruit and the bitter of spices. Specially recommended for fresh vegetables, salad, sliced beef and fish.

Sale marino agrodolce affumicato

Racchiude in sé gli aromi intensi di preziosi legni impiegati per affumicare la paprika, la nota classica piccante del peperoncino e quella fresca e fruttata del pepe rosa. Apprezzata dai migliori gourmet esalta il sapore di carni bianche, pesce cotto o crudo, formaggi freschi.

Bittersweet Smoked Sea Salt

This salt combines the intense smells of the precious wood used in the paprika smoking process, with the classic spice of chilli and the fruit essence of pink pepper. Really appreciated by top gourmets. This special salt is perfect for white meat, fish and fresh cheese.

Sale alla vaniglia bourbon

La preziosa vaniglia bourbon del Madagascar conferisce a questo sale un aroma floreale e dolce adatto a contrastare i piatti salati ed i dolci al cucchiaio. Ideale in tutte le preparazioni di cucina creativa.

Vanilla Bourbon Salt

Precious Vanilla Bourbon from Madagascar gives this salt a special sweet and flowery taste. Giving a nice contrast with salty dishes, and spoon-desserts.

Sale blu di persia

È un salgemma naturale che proviene dalle millenarie miniere dell'Iran. È molto raro e la sua particolare colorazione è dovuta alla Silvinita, una variante del reticolato cristallino del sodio. Ha un gusto estremamente salato, ma non persistente, e successivamente lascia in bocca un piacevole sapore speziato. Macinato al momento lo si può utilizzare per condire come un normale sale da tavola, oppure in grani per decorare piatti gourmet.

Blue Salt of Persia

This natural mineral salt comes from the thousand-year mines of Iran. It takes its distinctive colour from the Silvite, a variation of sodium crystal mineral. The Blue Salt of Persia has a salty taste very strong, but not persistent, that leave in your mouth a pleasant flavour of spices. You can use it fresh grinded as your normal dressing, or as dish garnishment if you leave it in its natural grains.

Sale rosso Hawai

È il tradizionale sale da tavola Hawaiano, che prende il nome da un minerale naturale, un'argilla rossa di origine vulcanica. Durante il processo di evaporazione l'argilla arricchisce il sale di ferro, conferendogli il suo caratteristico colore rosso. Ha un gusto molto più intenso degli altri sali ed un suo grammo contiene una quantità di ferro nettamente superiore a quella del sale comune. Si utilizza su carni alla brace (maiale, agnello, ecc.) e arrosti, per la sua particolare colorazione è inoltre usato dagli chef per decorare e guarnire piatti importanti.

Hawaiian Red Salt (Alea)

Alea is the name of the traditional Hawaiian salt. It belongs to the red clay minerals, coming from the volcanic areas. During the drying process, clay enrich salt with iron giving it the typical red colour. In comparison with other salts, the red Hawaiian has a more intense taste, and definitively it is very rich in iron. The red Hawaiian salt is perfect for grilled and roast meat (such as pork and lamb), as well as it's used as dish garnishment in best cuisine due to its deep and intense red colour.

Sale nero Hawai

È un sale evaporato al sole delle Hawaii, in un'isola di origine vulcanica e combinato con carbone vegetale che gli conferisce il caratteristico colore nero vellutato. Su sushi e sashimi ne esalta la presentazione e ne accentua l'aroma. Ottimo a fine cottura su pesce, bistecche, patate fritte e verdure. Utilizzato anche per decorare il bordo bicchiere del Margarita.

Hawaiian Black Salt (Black Lava)

Black Lava salt is dried upon the Hawaiian sun, and mixed with vegetable carbon, to obtain a salt with a distinctive velvet black colour. Sushi and Sashimi are the dishes that take the best from Black Lava salt, involving and exciting both sight and taste. It's also recommended as a final touch on fish, steaks and fries, and you can even find it on your drinking glass enjoying a Margarita.

Sale danese affumicato

Frutto di un lungo lavoro di affumicatura con legno di quercia e olmo rosso, secondo l'antica ricetta Danese. Un gusto unico da accompagnare ad una vasta gamma di piatti: da provare sulla pasta alla carbonara, nelle zuppe, con le uova o nelle frittate.

Un pizzico di questo sale su salmone, trota, aringa conferisce loro il caratteristico aroma di affumicatura.

Danish Smoked Salt

This very special salt comes from a long smoking process that involves only oak and red elm wood, following strictly the old and traditional Danish recipe. Its ancient taste can perfectly go with a wide variety of dishes, and especially with Italian 'pasta alla carbonara', soups, and eggs. Just a little bit of it on salmon, trout or herring, it's enough to give them a distinctive smoked aroma.

Lo **chafing dish bifacciale**, oltre a rispettare i canoni di un design essenziale, senza fronzoli, con **comode maniglie in tondino ad alto spessore**, pesi e misure nei giusti rapporti, **finiture curate**, ha il suo fattore di qualità in più, anzitutto, nell'essere **un dispenser di alimenti che permette il rifornimento ed il servizio da una sola posizione**, senza spostarsi o spostare l'articolo.

Il **centrotavola da buffet rotondo e girevole** accoglie al suo interno una serie di ciotole per offrire diverse pietanze, è **un piatto conviviale**, oltre ad essere molto utile per un servizio di catering, **presentandosi, inoltre, con un design raffinato e minimalista**.

The two-sided chafing dish, over and above respecting the canons of essential design without frills, with **comfortable handles, rounded and thick, weights and sizes in the right ratio and careful finishes**, has the added value of quality above all in being **a food dispenser that permits replenishment and service from the same position**, without moving and without moving the article.

The central buffet table, round and revolving and containing a series of bowls for offering various dishes, is **convivial** as well as being highly useful for catering services.

Moreover the design is refined and minimalist.

La linea di mestoli è stata studiata per agevolarne l'utilizzo: la migliore funzionalità è assicurata da un bilanciamento perfetto, conseguenza di un accurato studio dei rapporti tra le misure del manico, delle coppe e delle pale, degli spessori del materiale. In tal modo il prodotto risulta maneggevole, grazie alla perfezione del movimento di leva.

The ladle line has been designed to facilitate utilisation: top functionality is ensured by perfect balancing, the result of close study of the relationship between handle, cups, scoops and the thicknesses of the materials. In this way the product is manoeuvrable, thanks to perfect leverage.

La funzionalità ed il design dei prodotti caffetteria sono evidenziati da dettagli che risolvono alcune classiche problematiche operative:
• il taglio della goccia agevola il versamento evitando spargimenti,
• il manico ergonomico offre una presa facile e sicura,
• la confortevole e pratica aletta sul coperchio
garantisce una chiusura ermetica nella fase di versamento.
Il design, infine, è caratterizzante, un modello esteticamente accattivante e riconoscibile.

* Lucido Bright ● Satinato Mat

The functionality and design of the coffee pot products are highlighted by details which resolve some classic operational problems:

- cutting off the drip is perfect, thanks to the special conformation of the edge which favours easy pouring without spilling;**
- an ergonomic handle for easy and safe grip,**
- a comfortable and practical fin on the lid guaranteeing hermetic closure in the pouring phase.**

Lastly, the design is characteristic: an aesthetically attractive model.

Piazza Happy Hour

Dalla partnership fra PIAZZA e PLANET ONE, scuola di bartender famosa in tutta Europa, è nato il "Versatore Perfetto Planet One".

Questo accessorio aggiunge ai già apprezzatissimi **Versus** ulteriori importanti vantaggi:

- **Versaggio perfetto secondo il "Free Pouring Planet One"**
- **Flusso costante dei liquidi**
- **Angolo di versaggio idoneo per il V pouring**
- **Taglio della goccia sempre preciso**

The "Planet One Perfect Pourer" is the result of a partnership between PIAZZA and PLANET ONE, the bartender school famed throughout Europe.

This accessory adds the following important advantages

to the already highly acclaimed **Versus**:

- **Perfect pouring thanks to "Free Pouring Planet One"**
- **Constant flow of the liquid**
- **A pouring angle ideal for V pouring**
- **Perfect "no drip" pouring every time**

Versus rappresenta la nuova sfida commerciale di PIAZZA. Una gamma completa di versatori, risultato di un progetto studiato fin nei minimi particolari, in grado di offrire ai professionisti del settore Bar prestazioni ineguagliabili. Materiali di prim'ordine, caratteristiche tecniche all'avanguardia, forme progettate ergonomicamente, dettagli costruttivi analizzati fin nei minimi particolari, tutto è stato studiato per garantire non solo prestazioni "al top" in ogni situazione, ma anche per offrire il massimo in termini di comodità, praticità, facilità d'uso, igienicità.

Versus is PIAZZA's latest novelty. A complete range of pourers, the result of a detailed project, capable of offering Bar professionals unmatched performance. Top grade materials, advanced technology, ergonomic design, construction details that have been carefully studied right down to the smallest details: all aimed at guaranteeing not just "top" performance in all situations, but also max comfort, practicality, ease of use and hygiene.

Chiudibecuccio a tenuta per garantire la massima igienicità nell'utilizzo.

Spout seal to guarantee max hygiene during use.

Beccuccio versatore in colori assortiti, studiato per offrire un flusso del liquido costante ed omogeneo. Il suo ancoraggio al collo di **versus** avviene attraverso un giro completo di filettatura per una tenuta ottimale in ogni condizione d'uso.

Pouring spout in various colours, designed to get a constant, even flow.
Fixed to the neck of the **versus** via 360° threading for excellent tightness in all conditions.

Il collo è stato disegnato secondo principi ergonomici per consentire una perfetta impugnatura di **versus** e rendere l'operazione di versatura pratica e veloce in tutte le condizioni di utilizzo. La sua particolare filettatura (a doppio giro) garantisce una tenuta totale, rendendolo nel contempo universale, può essere infatti montato non solo su tutte le riserve **versus** ma anche su quelle delle altre marche più diffuse.

The ergonomic design of the neck of the **versus** makes for a perfect grip and practical, fast operation in all conditions. The special threading (double turn) guarantees perfect tightness and an universal fitting not only to the **versus** juice containers but to other leading brands, too.

La riserva, disponibile in varie capacità, con la sua comoda scala graduata consente l'immediata visione della quantità di prodotto presente all'interno.

The juice containers, available in various sizes, have a useful graduated scale and you can immediately see how much liquid they contain.

La base zigrinata della riserva permette il perfetto ancoraggio del suo coperchio quando questo viene rimosso per inserire il collo.

The knurled base of the juice containers allows a perfect fitting of its cover once removed to assemble the neck.

Piatto per catering Tutto l'occorrente in un oggetto solo

Il CaterPlate® è composto da piatto, forchetta, coltello e cucchiaio raccolti in un solo oggetto che include anche gli spazi per salse e condimenti e una comoda sede per il bicchiere.

LE SUE CARATTERISTICHE

- Immagine accattivante
- Tutti gli oggetti necessari in uno strumento unico
- Qualità superiore
- Riciclabile al 100%

1. Posate staccabili e riattaccabili
Snap off & click on
2. Supporto per il bicchiere
Wine glass holder
3. Spazi per salse e condimenti
Areas for sauces and dressing

Catering plate All-in-one

The CaterPlate® consists of a **plate, fork, knife and spoon "in one"**, and includes areas for sauces, a wine glass and menu.

THE CHARACTERISTICS

- Luxury image versus standard 'disposables'
- All-in-one combination
- High quality
- 100% recyclable plastic used

- Struttura in lega leggera resistente e facile da pulire
- Motore a velocità variabile che consente di tagliare, frullare o sminuzzare in pochi secondi
- Sistema di sicurezza attiva che aziona le lame solo a coperchio inserito
- Coperchio rimovibile che permette l'aggiunta di ingredienti durante la fase di lavoro
- Unità di taglio composta da 4-6 lame in acciaio inossidabile completamente smontabili per una pulizia facile e veloce
- Disponibili modelli con campana in policarbonato o in acciaio, da 1 o 1,5 litri, con potenza del motore da 600 watt
- I giri del motore a vuoto vanno da 18.000 a 22.000
- Tutti i prodotti sono con marchio CE

- Strong, easy to clean light alloy structure
- Variable speed motor that lets you cut, blend and chop in just a few seconds
- Active safety system that only drives the blades when the lid is on
- Removable lid that lets you add ingredients while working
- Cutting unit with 4-6 stainless steel blades, quick to remove for fast, safe cleaning.
- Choice of models with polycarbonate or steel bowls, 1 or 1.5 litres, 600 watt motors
- 18000 - 22000 rpm (empty)
- All products have CE markings

**Modulo di lavoro caffè
Piazza Happy Hour**
Piazza Happy Hour
coffee work unit

660000

125 x 80 x 65

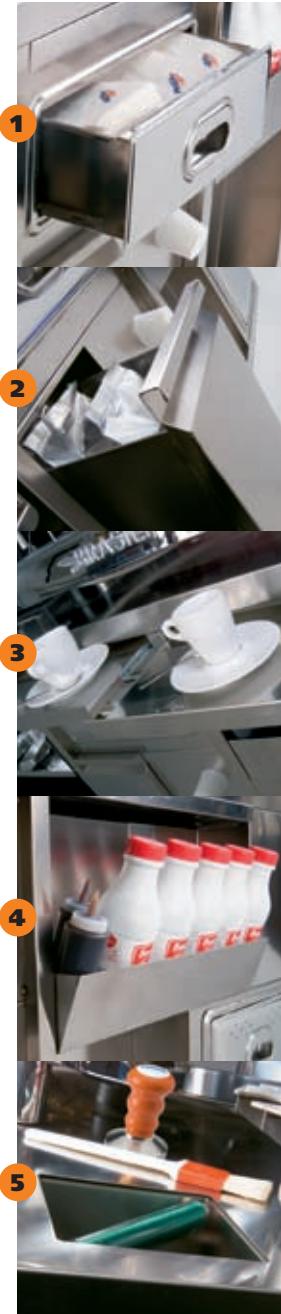

Il modulo di lavoro caffè Piazza Happy Hour è una stazione di lavoro completa ed innovativa.

Sviluppata in collaborazione con gli specialisti di 9Bar (la prima scuola di Coffee Flair in Italia) presenta una serie di particolari che saranno sicuramente apprezzati per la loro funzionalità.

The PIAZZA Happy Hour coffee work unit is a complete and innovative work station.

Developed in co-operation with the experts at 9Bar (the first Coffee Flair school in Italy), it has a series of details whose practicality is bound to be highly appreciated.

1. **Pratico cassetto portaoggetti**
Practical tool case
2. **Capiente vano di supporto per scorta caffè**
Capacious coffee store
3. **Due piani di lavoro estraibili ed indipendenti**
Two independent extractable work tops
4. **Tasca portabottiglie basculante**
Tip-up bottle compartment
5. **Comodo foro con barra battifondi**
Handy sink with grind emptying bar

Si ringraziano Brasilia spa e 9Bar per la collaborazione prestata nella realizzazione del servizio fotografico del modulo caffè.

Our thanks to Brasilia SpA and 9Bar for their assistance in preparing the photos of the coffee unit
